

*Why are We Asking you
to participate in the
Live Like Andi
Golf Outing?*

While we certainly hope you enjoy a day of relaxation and the pleasure of playing on a great golf course our foundation has a mission that is even greater this year than in past years.

Andrea Whitesell O'Connell for 21 years fought a courageous battle maintaining a positive spirit while fighting her cancer Adenoid Cystic Carcinoma (ACC) which, as she viewed it, was just one of her jobs. She had a wonderful marriage and three great children and was able to provide a spirit and attitude while fighting her health issue that was an inspiration. It continues now with her friends and family in our efforts to help others deal with ACC.

Andrea's desire to help others in their fight has been our objective and we're making progress. At Andrea's direction the donation of her tumors to research greatly increased researchers in Sweden in finding possibly similar traits to identify ACC in its early stages.

Now there is more exciting news that the clinical phase 2 trials are now underway at hospitals in Michigan and the trial is being fully funded by the Live Like Andi Foundation!

The foundation has additional responsibilities in providing information and communication for ACC patients and also continue our scholarship program.

We need your participation and any support available will be greatly appreciated.

*Thank You,
The Whitesell and O'Connell Families*
